Birds Book

Do you know about the Mauritius Cuckoo Shrike or the habitat of the Rodrigues Warbler? Would you be able to recognise the Grey Plover? The photography book of Jacques de Spéville provides relevant answers to all these questions and much more.

This simple and accessible guide destined to a wide public provides essential and precise information on birds of Mauritius and of Rodrigues. It above all showcases high quality photographs most of which taken by the author himself. These accurate pictures will help the reader identify birds around him; even if they serve no purpose, they will certainly be valued for their endeavour to unveil the beauty of nature.

Connaissez-vous le Merle cuisinier? Sauriez-vous reconnaître un Pluvier argenté? Savez-vous quel est l'habitat de la Fauvette de Rodrigues? L'ouvrage de photographie de Jacques de Spéville fournit des réponses à ces questions et à bien d'autres encore.

Ce guide simple et abordable destiné à un large public fournit des informations essentielles et précises sur les espèces d'oiseaux de Maurice et de Rodrigues. Il se distingue surtout par la qualité des photographies, presque toutes réalisées par l'auteur lui-même. Ces images de précision permettront au lecteur de reconnaître les oiseaux qui l'entourent; à défaut d'être utiles, elles sauront être appréciées pour elles-mêmes puisqu'elles révèlent toute la beauté de la nature.

JACQUES DE SPÉVILLE

Jacques de Spéville, former Managing Director of Maseburn, a leading destination management company in Mauritius, developed a passion for bird photography during his retirement. He is also a volunteer photographer for the Mauritian Wildlife Foundation which protects and reintroduces endangered bird species within Mauritius. Some of his photography have even figured on Mauritian postage stamps.

Jacques de Spéville, ancien directeur de Maseburn, l'une des principales agences touristiques mauriciennes, a développé une passion pour la photographie d'oiseaux durant sa retraite. Il est par ailleurs photographe bénévole pour la Mauritian Wildlife Foundation qui œuvre en faveur de la sauvegarde et de la réintroduction des espèces d'oiseaux menacées sur le territoire mauricien. Certaines de ses photographies figurent sur des timbres-postes mauriciens.
